

# Opportunities at Room 58

**Company:** Room 58

**Title:** Junior Front-End Developer

---

## The Role:

Would you like to work for a world-class digital agency, delivering web solutions on a global basis?

Are you proud of the work that you do and creating high quality code? Have you got a good eye for detail and design, and you work proactively to find innovative solutions and developments? Are you not afraid to take initiative and you're hungry to learn more?

We are looking for a self-motivated junior Front-End Developer with ideally some commercial experience who's keen to learn. You'll be joining our experienced team to learn, help maintain and improve our product offerings used globally by hundreds of customers in over 27 countries.

---

## Key Skills

- Semantic HTML5 and CSS3 mark-up.
- jQuery & native JavaScript programming.
- SASS pre-processor (SCSS).
- Good experience working with responsive design.
- An understanding of SEO best practice for both web design and development

## Desirable

- Version control systems, such as Git
  - JavaScript framework experience, ideally Angular JS or Angular2+.
  - Understanding of UI/UX design on both mobile and desktop
  - Effective communication skills.
  - Knowledge of automation task runners, ideally Gulp.
  - Knowledge of design principles, typography, user interfaces, web standards and usability.
  - JavaScript testing frameworks.
-

# Opportunities at Room 58

## About Room 58

We are a small, dynamic outfit, looking for someone who likes to experiment with new technologies, and to share their learning with the rest of the team. You'll need to be quick-thinking, responsive to change, and confident to suggest out-of-the-box solutions.

Our vibrant offices in central Cheltenham are designed to foster a great working environment. We enjoy regular socials, a casual atmosphere and flexible working hours. Apply today by sending over your CV and portfolio to [jonathan.catmull@room58.com](mailto:jonathan.catmull@room58.com).
