

Opportunities at Room 58

Company: Room 58

Title: Senior Back End PHP Developer

The Role:

Would you like to work for a world-class digital agency, delivering web solutions on a global basis?

Are you passionate about delivering outstanding web applications for international clients?

Are you familiar with the latest techniques in back end web development?

We are looking for a self-motivated Senior Back End Developer to join our team to help shape our future product offerings. This role will involve creating complex interfaces for our web applications, so in-depth experience with the LAMP stack is essential.

Key Skills

- Strong PHP skills including OOP and MVC
- Strong DB Skills – MySQL (or equivalent) is essential, MongoDB is desirable
- Knowledge of working with APIs is essential and the creation of Restful APIs would be desirable
- Good knowledge of JavaScript and HTML5

Desirable

- Knowledge of Linux administration and Bash scripting would be desirable
 - Knowledge of GIT / Bitbucket would be desirable
 - Knowledge of Amazon Cloud Services would be desirable.
-

About Room 58

We are a small, dynamic outfit, looking for someone who likes to experiment with new technologies, and to share their learning with the rest of the team.

Opportunities at Room 58

You'll need to be quick-thinking, responsive to change, and confident to suggest out-of-the-box solutions.

If you are looking to join a buzzy, enthusiastic company based in stunning offices in central Cheltenham, then apply today by sending over your CV and portfolio to recruitment@room58.com.
