

Opportunities at Room 58

Company: Room 58

Title: Full Stack Developer

The Role:

Would you like to work for a world-class digital agency, delivering web solutions on a global basis?

Are you passionate about delivering outstanding web applications for international clients? Are you familiar with the latest techniques in software development?

We are looking for a self-motivated Full Stack Developer to join our team to help shape our future product offerings. This role will involve creating complex interfaces for our web applications, so in-depth experience with the LAMP stack is essential.

Key Skills

- Strong PHP skills including OOP and MVC are essential.
- Strong SQL skills, preferably working with MySQL, are essential.
- Experience of creating Restful APIs.
- Proficient experience using JavaScript. Desirable to have knowledge of a JavaScript framework such as Angular or React.
- Up to date CSS and HTML5 experience with knowledge of both flexbox and CSS grid desirable.
- Experience using version control with GIT.

Desirable

- Knowledge of continuous integration and automated testing would be desirable.
 - Experience with NoSQL technologies would be desirable.
 - Knowledge of cloud technologies, specifically working with AWS would be desirable.
-

Opportunities at Room 58

About Room 58

We are a small, dynamic outfit, looking for someone who likes to experiment with new technologies, and to share their learning with the rest of the team. You'll need to be quick-thinking, responsive to change, and confident to suggest out-of-the-box solutions.

If you are looking to join a buzzy, enthusiastic company based in stunning offices in central Cheltenham, then apply today by sending over your CV and portfolio to recruitment@room58.com.
